

Tool List for Modeling with the Masters PCR 2017

Introduction to Weathering with Mixable Oil Paints (4)

Instructor – Clark Kooning, MMR

Required Tools Participants Must Provide This is a suggested list of tools that may be required to participate fully in the hands-on portion of our program. To allow you to fully take part in the building of models, you are strongly suggested to have all tools listed. You, however, may not use them in the program but will have them for future building. Most of the tools listed can be found at your local hobby shop, hardware store or craft store. Please note bring any tools you usually like to use, you may not use all tools listed. If you have any problems with the description of items listed, please contact Clark Kooning, MMR, via e-mail at ckooning@msn.com, call at 705 578 2229.

Important note:

Each Student is responsible for bringing his or her own cars for weathering. We suggest two cars, modern boxcar and a covered hopper

Required Tools:

Each Student is responsible for bringing his or her own cars for weathering. We ask you to bring two cars a Modern Boxcar and a covered hopper

Assorted Paint brushes 1/8 flat, 1/4 flat 1/2 flat 1/2 fan brush 3/4 fan brush must be made for oil paints.

3 (000) Sable paint brush (may be called Natural paint brush)

Brown fine sharpie marker

Plastic Paint pallet (Michael's Artist's Loft™ Fundamentals™ Palette & Knives Set

Item# 10122055) or similar

Students need to bring their own tools to participate in these clinics

Bring any other tools you usually use or might find useful.

Optional tools: Optivisor, extra work light. These are handy tools which you could use in our clinics, but it is not essential that you buy them just for this week. It is your option!

A good way to carry all of these tools is to buy a small, inexpensive plastic tackle box. These are usually available at department stores year-round.

Please note an updated tool list may be sent to you the week before the convention or on the Convention website
