The Sierra Division has made arrangements with the California State Railroad Museum in Sacramento to offer a free admission day on Saturday, February 11 for all NMRA PCR members in good standing. For those of you who haven't visited the NMRA's "The Magic of Scale Model Railroading" exhibit at the museum, this is a great opportunity to see it. Former NMRA President and PCR member Charlie Getz played a key role in making this exhibit happen and he has agreed to be available to give a guided tour or two that day as well as answer questions that you might have about the exhibit.

For those not familiar with the museum, it is open to the public from 10 am to 5 pm and is located at 125 I Street Sacramento CA 95814 at the north end of Old Town Sacramento. The museum is designed to be accessible to persons with disabilities. Paid parking is located in a garage across the street and there are several restaurants located within easy walking distance. Car pooling or travel by train is strongly encouraged. The Sacramento Valley Railroad Station is located one block east of the museum and serves Sacramento Regional Transit Light Rail, Amtrak and Capitol Corridor trains.

If you are interested in taking advantage of this complementary admission offer, please RSVP via e-mail to [Sierra Division Superintendent Dave Putnam](mailto:Sierra Division Superintendent Dave Putnam) no later than February 8th. Please use "CSRM RSVP" in the subject line on your RSVP and include your full name and division name (if you know what it is) in the body of the e-mail. Park aides at the museum lobby admission desk will be provided with a list of names for those who've sent RSVPs. No complementary admission will be available to those who fail to RSVP.

## Sierra Division Callboard

put EDITOR in the subject line.

# From the Superintendent

**A New Year Is Upon Us**, and I now  
find myself as the newly installed Superin-  
tendent of the PCR Sierra Division. Prior  
to anything else, I'd like to recognize Chip  
Meriam for his past four years in this of-  
fice. He helped us negotiate a path  
through the COVID pandemic by provid-  
ing us with as much contact and interaction  
as possible during some very trying times.  
He has left some big shoes for me to fill

here in the division superintendent's office. I'm pleased to note that Chip has gra-  
ciously offered to continue his services as Editor of the quarterly Division newsletter,  
the *Short Line*. If you would like to contribute material in the newsletter please con-  
tact him at: [chipmeriam@comcast.net](mailto:chipmeriam@comcast.net). Also continuing on are David Fryman as  
the Chief Clerk and Michael Eldridge as the Division Paymaster.

Now a little about myself: I was born and raised in Napa. Our family home was about 100 yards from the Southern Pacific's spur that ran through Napa Valley from Lombard (now known as American Canyon) to St. Helena. The Napa Valley Wine Train now runs on those same tracks, hauling sightseeing passengers rather than the freight that moved on the line back in the '60s and '70s when I was a kid.

**Dave Putnam -  
Sierra Division Superintendent**

**Your new division superintendent's first time ever  
seeing a steam locomotive during a visit to the San  
Francisco Zoo in 1959. That's a vintage 1924 S-14  
0-6-0 Lima built for Southern Pacific Railroad.**

After finishing my education at Napa  
Valley College, for a career in television  
engineering, I had a brief 3-year stopover  
in Portland working at the ABC affiliate  
KATU in the late '70s and early '80s.  
Following my time in the great northwest,  
I was hired at Los Angeles at KABC-TV  
where I worked for 36 years. Following  
my retirement, my wife and I moved

north and commenced building our dream retirement home in the Sierra foothills.

During my ramp up to retirement I rediscovered model railroading, following a 40-  
year hiatus, during a random visit to a hobby shop while on vacation. I joined the  
NMRA in 2007 and since then I've attended six national conventions, numerous re-  
gional ones, as well as several local events. My NMRA membership has given me  
opportunities to meet many like-minded people involved in the hobby, gain a lot of  
knowledge and allowed me to visit and operate on several club and home layouts.

*Continued on page 3*

*Superintendent” - from page 2*

Now that our new home is finished, I plan to dedicate a good portion of my free time building my dream layout in our barn loft. Besides numerous chores that I perform around our property I also volunteer my services as a docent at the California State Railroad Museum along with working on the team that helps to maintain the NMRA’s “Magic of Scale Model Railroading” exhibit located on the third floor of the museum.

So much for my introduction. Here are some of the goals I would like to achieve during my term in office: I want to work to improve communication between the division and the membership. I hope to provide our members with opportunities to visit club and personal layouts that have not recently been on the tour list as well as those that haven’t been available at all in the past. The same goes for prototypical venues located in our division where we will be holding our in-person quarterly meetings.

Growing our membership is also on my to-do list along with increasing opportunities for active member involvement. We all need to put our best foot forward to attract and retain members. Your suggestions to help me accomplish the goals that I’ve listed above are encouraged. You can reach out to me at: [dave@daveandlisa.net](mailto:dave@daveandlisa.net)

I’m looking forward to several upcoming events in both our division and region as well as neighboring ones. Our first in-person meet in 2023 is scheduled to take place on Saturday, February 11 in Sacramento.

This coming year, our division is co-hosting the PCR’s annual convention “Rails by the River 2023” with the Feather River Rail Society. The convention will take place in Sacramento at the Courtyard by Marriott Cal Expo April 26-30. Sierra Division members Jim Collins and Chip Meriam are co-chairs for this convention. They along with the other members of the convention committee have been hard at work planning for what should be an event we can all be proud of.

For further details on convention registration and information on discounted hotel room rates, visit the [convention website](#)

The 2023 National NMRA Convention "[Texas Express](#)" hosted by Divisions 1 & 2 of the Lonestar Region will be taking place in Grapevine, Texas from August 20 thru 26.

Our neighbors to the south in the NMRA Pacific Southwest Region are already planning for the 2024 National Convention “SurfLiner” in Long Beach, California scheduled for August 4 thru 11, 2024.

With your help, I hope to foster and grow a positive experience for all our division’s members. This is a team effort and the more we all pitch in, the better it can be. Here’s to a happy and productive new year for all!

**My first model railroad layout, circa 1964, featuring an HO scale Penn Line freight consist powered by an F7 Santa Fe locomotive in Warbonnet livery**

*Dave Peterson*

# From the Editor

**We're Wrapping Up The Fourth Quarter** of 2022 and it's been a eventful and successful year in many ways. Personally, I am pleased to be back here in the "From The Editor" column, having turned the Division Superintendent's position over to Dave Putnam.

Let me tell you, we're in capable hands! Dave has come out of the roundhouse under full steam. He has taken up an important leadership role in the planning of our April convention. He has "modernized" much of the way we communicate and promote ourselves. And he has stepped into the Superintendent's office as if he's been here all along. We're lucky to have Dave among us. You can learn more about Dave in his first "From the Superintendent" column beginning on page 2.

Some other items to note in this issue:

- We have a special day at the California State Railroad museum planned for February 11. See page 1 for the details.
- We will have a table at the Great Train Show at Cal Expo in January. See page 5
- Sadly, we lost one of our active members. Terry Schmidt passed away in November. See page 8 for a tribute.
- We took part in a successful International Rail Fair in October. You can learn more in the story beginning on page 10.
- Were nearing the end of the "Early Bird" registration period for the April convention. See page 24.

---

*As I write this, It is four days before Christmas. With any luck, you will be reading this before that glorious day. The editorial staff here at the Short Line wish you a wonderful and Joyous Christmas, and a Happy and Prosperous New Year.*

*Chips*

*Joni*

The Great Train Show is coming to Cal Expo in Sacramento on January 28 & 29. The show hours are 10 am to 4 pm both days. This is one of the larger model railroad events of the year in our division. There will be many vendors selling locomotives, rolling stock, scenery supplies, books, magazines and other railroad related memorabilia. There will also be several modular layouts set up at the show. It's a great chance to chase away those winter blues and is a children and grandchildren friendly event.

The Sierra Division will have a table at the show where attendees can get information about the joining the NMRA as well the upcoming PCR convention "Rails By The River 2023" right up the street at the Cal Expo Courtyard By Marriott in April.

If you would like to help staff our table for a few hours either day of the show, please contact Dave Putnam via e-mail <[dave@daveandlisa.net](mailto:dave@daveandlisa.net)>. Your admission to the show will be free for the day that you volunteer to help out.

# LAST RUN

## Terry Schmidt

Col (Ret) Terry Schmidt died 5 Nov 2022 of heart related issues, in California. Terry was born in Milwaukee, Wisconsin, in 1943 to Howard William Schmidt and Beverley Marion (Wilke) Schmidt. He is survived by his wife, Denise (Welch) Schmidt, in Gold River, California, where they had lived for the past 33 years, and his nieces Dianna Gustafson and Carrie Scholtz, and his sister-in-law, Bonnie Schmidt, all of Wisconsin.

Terry graduated from the US Air Force Academy in 1966, flew C-130 aircraft in Vietnam, receiving the Distinguished Flying Cross, the Legion of Merit, Defense Superior Service Medal, and the Air Medal. Upon his return, he married Denise Welch in Midland, Texas.

He enjoyed a long and fulfilling military career, first flying C-130s, and later T-49s, accumulating more than 5,000 hours of flight time. He always said one of his most enjoyable postings was as an Exchange Officer to the Royal Australian Air Force, at RAAF Base Richmond, near Sydney, Australia. He went on to attend graduate school at the Air Force Institute of Technology, earning his Masters Degree in nuclear physics, and was appointed the Director of the McClellan Central Laboratory, Technical Operations Division, at McClellan AFB in Sacramento, which was tasked with monitoring the Nuclear Test Ban Treaty, and several classified programs.

He retired from active duty in Sacramento in 1994 and started his business as a computer programmer and consultant for small businesses. He devoted much of his free time to his longtime love of railroads and railroad history and was a Founding Director of the Placerville Sacramento Valley Railroad in Folsom, a non-profit organization for preserving railroad history by operating a heritage railroad for the public. He was also a longtime board member for the Sacramento Valley Historic Railway (SVHR) in Woodland, at times serving as a Conductor or Brakeman on its tourist railroad that ran between Woodland and Clarksburg and working many years to help restore the historic Woodland Train Depot, built in 1911.

He was very proud of his own model railroad, which was featured on German television and in several German magazines and DVDs. He also was a longtime member of the Carmichael Kiwanis Club, the National Model Railroad Association, and the Air Force Academy Association of Graduates.

## October 22 and 23 , International Rail Fair at The Grounds in Roseville.

Sierra Division teamed up with the Roseville Roundhouse Model Railroad Club, Sacramento Modular Railroaders, and European Train Enthusiasts to host the annual International Rail Fair. The last such event actually occurred in 2019, but was cancelled because of COVID mitigation measures in 2020 and 2021. We were all happy to “get back out” after such a lengthy hiatus.

Our part in the affair was to handle the entry gate, ticket sales, and an NMRA promotional exhibit with a Timesaver layout for rail fair goers to operate. The following are shots from the event. *(all photos: Jim Collins)*

**Orland, CA Was The Place To Be** on Saturday, November 12. Mike Hamlin hosted the Sierra Division in-person meet in Orland on that day, and it was a fabulous event.

The first stop was Mike's home, featuring a G scale garden railroad in the center of his circular driveway, an HO scale layout in a separate outbuilding, and a furry, four-footed welcoming committee named "Frozen." As you can see in the layout photos on the next page, Mike is big into structures, town scenes, and lots of details. *(For more on Mike's layout, see the January 2020 edition of the **Short Line**.)*

# November Meet Orland

The next stop was Mike’s neighbor, Juston Cheney. Juston is into trains in a big way (literally). There is a G scale railroad suspended from the ceiling of his family room. Juston custom built the cabinet-quality hangers and roadbed. He is also constructing an N scale model railroad in the basement,

*(photo: Dave Putnam)*

**Orland - Newville - and Pacific Excursion Train**  
*(photo: Dave Putnam)*

**Sierra Division Members Taking The Train To Lunch**  
*(photo: Dave Putnam)*

Our final stop was the Glenn County Fairgrounds, where we were treated to a train ride on the Orland, Newville, and Pacific narrow gauge excursion railroad. The ON&P is operational during the Glenn County Fair in May, as well as various other special events throughout the year. We departed from the passenger platform adjacent to the preserved Southern Pacific depot, rode around the fairgrounds, and came to a stop at a shaded picnic area where Mike Hamlin was busily preparing a tri-tip barbecue lunch for all of us.

Following lunch, we were able to tour the inside of the depot, where the agent's office and living quarters have been preserved just as they were when the depot was closed. The depot is a treasure-trove of artifacts from a by-gone era.

Later in the afternoon, we held our business meeting and contest inside the depot as well.

Special thanks to Mike Hamlin for making the arrangements and managing this fall meet. Well done, Mike!

If you would like for Sierra Division events to appear in your personal calendar, you can link to the calendar on the Sierra Division website. This will work if you use Google Calendar, Outlook, or Apple's Calendar app. Go to the Sierra Division website, <http://www.pcrnmra.org/sierra>, and click on Calendar. On the right you will see a link to a page that describes how to link to the Sierra Division calendar from your calendar. After that, when events are placed on the Sierra Division calendar they will automatically appear in your calendar also.

Questions or need help?    [meldridge2000@gmail.com](mailto:meldridge2000@gmail.com)

The Sierra Division, PCR-NMRA is making available to Sierra Division members a “kit” containing the necessary tools and instructions to complete the part 3 requirements of the NMRA Model Railroad Engineer – Civil Certificate. More information on the requirement is at: [www.nmra.org/civil](http://www.nmra.org/civil)

#### The Kit:

The kit includes tools and templates sufficient to create the following (you only need to construct 3):

- HO Scale #5, Code 83 Right-hand turnout
- HO Scale #5, Code 83 Left-hand turnout
- HO Scale #5, Code 83 Single crossover
- HO Scale #5, Code 83 Double crossover
- HO Scale #5, Code 83 Crossing 14 degree

#### How the System Works:

- Reservations are on a first-come, first-served basis. All reservations will be for a calendar month. Requests must be sent to [louiesqd@att.net](mailto:louiesqd@att.net).
- The kit will be shipped via UPS on the first day of the month. Arrival should be within 2-3 days.
- The member may use the kit for what should be, **about** three weeks.
- The member must ship the kit back, postage pre-paid by the 25<sup>th</sup> of the month. This will allow us time to check and clean the kit and still send it out again on the first of the month. Zip ties and address information will be included in the kit. Return the kit to:  
**Lou Anderson, 100 Buddy Drive, Woodland, CA 95776.**

#### Reservations:

The rental fee and deposit must be received by the 15<sup>th</sup> of the preceding month.

The rental fee for the kit is \$25.00 by separate check. This will cover the cost of shipping the kit to the member, cleaning costs and additional packaging as needed.

A deposit in the amount of \$500.00 must be included by separate check. This check will **NOT** be deposited unless the kit is not returned. When the kit is returned, the check will be destroyed.

Mail both checks, made payable to the Sierra Division, to:

**Lou Anderson, 100 Buddy Drive, Woodland, CA 95776.**

#### Preparation/Supplies:

Be prepared. Have all supplies ready and on-hand in advance of the arrival of the kit. You will need:

Micro-Engineering Code 83 NON-weathered rail, have extra on hand.

Small diameter solder.

Soldering iron, min 35 watts.

Instructions and a DVD are including in the kit or you can go to <https://www.handlaidtrack.com/> for more information.

#### Responsibilities:

- The member is responsible for loss and all damage to the contents of the kit. If you break it, or damage it beyond further use, notify us immediately at [louiesqd@att.net](mailto:louiesqd@att.net). Be prepared to include a check in the amounts listed above to cover the cost of replacement.
- Please notify us as soon as possible if you wish to cancel your reservation so that we can offer it to another member.

If you have questions, please direct them to Lou Anderson at [louiesqd@att.net](mailto:louiesqd@att.net). or Chip Meriam at [chipmeriam@comcast.net](mailto:chipmeriam@comcast.net).

# Around And About

## December 10 - Butte County Fair Grounds Gridley, CA

Saturday the 10th of December must have been one of the wettest and windiest days of the year. Nonetheless we made the trip to the train show in Gridley, about 25 miles to our south.

Gridley is a very small community; especially when compared to Roseville. Regardless, we discovered nearly as much activity here (*upper left*) as we recently experienced at International Rail Fair in Roseville in October.

We found a few other commonalities, as well. Several of the vendors at the Gridley show were also in Roseville. The sawmill (*upper right*) is one of the vignettes on display in the Wandering Railroad, last seen in Roseville.

And, of course, our very own Sierra Division favorite, Walt Schedler.

We think NMRA would be well served if we were represented at the next Gridley train show. Do you agree?

NATIONAL MODEL RAILROAD ASSOCIATION, INC.

**Wow! Did you know there's a new  
NMRA Member Benefit?**

**It's the NMRA Partner Program!**

**Model railroad manufacturers are partnering  
with the NMRA to offer discounts to NMRA  
members.**

**Current members log in to [www.nmra.org](http://www.nmra.org) .  
At the Members Menu, go to the NMRA  
Partnership Page to see who's on the list,  
discounts offered, and how to order. New  
Partners are coming on board every month,  
so check back often.**

**If you're not yet a member, here's another  
great reason to join and get more fun from  
your hobby with a membership in the  
world's largest model railroad organization.**

**[www.nmra.org](http://www.nmra.org)**

**See Partial List Of Partners On The Next Page**

## Partnership Program

The companies listed below give discounts to NMRA members when orders are placed using a special discount code. You can find descriptions of these companies and their products, links to their websites, and the discount codes on our Partnership Page at [nmra.org/partnerships](http://nmra.org/partnerships) . Remember you need to be logged into our site as a member to see the codes! Go to [nmra.org/user/register](http://nmra.org/user/register) to register your name on the website.
